The colors shown are approximate, and as close as possible, to represent concrete with a flat trowel finish and sealed with Dura Seal HG Sealer. Proline Dura Products is not responsible for application methods, finishing techniques, jobsite conditions, curing methods, and other conditions and therefore cannot guarantee an exact match. Various texturing and finishing techniques such as troweling or brooming, the use of sealers, and color variations in raw materials can produce variations in colors. Proline Dura Products highly recommends a representative job sample be done for each product.
