

High Zirconia Alkali-resistant Glass Fiber

For Glass Fiber Reinforced Concrete (GRC)

SDI AR GLASS FIBER

SDI AR GLASS FIBER, manufactured by SEALANT DEPOT (ARG) is used throughout the world as a reinforcement for cement composites, including asbestos replacement products.

Four Advantages

- SDI AR Glass Fiber is a high-quality alkali-resistant glass fiber containing a high percentage of zirconia (ZrO_2), which enhances its resistance to alkali in cement composites.
- SDI AR Glass Fiber can be used as an asbestos replacement.
- SDI AR Glass Fiber is available in a variety of strand lengths and sizing to meet specific applications and processing requirements.
- SDI AR Glass Fiber has excellent workability characteristics
