SDI CONCRETE DYE

Translucent, interior concrete dye available in 20 colors.

PRODUCT DESCRIPTION

SDI Concrete Dye is a translucent dye, formulated using very fine particles of color designed to penetrate and color interior cementitious surfaces, including polished concrete. **SDI Concrete Dye** creates a unique, multi-colored translucent color scheme that unlike paints, will not crack, chip, or peel. **SDI Concrete Dye** is available in 20 standard colors but can be combined to create an unlimited color palate that creates a similar mottling or marbled effect, when used properly. Create the look of a beautiful, custom acid stained floor in about 1/3 of the time.

BENEFITS/FEATURES

- ◆ 20 great color choices in neutral and vibrant varieties.
- ◆ Very economical way to finish and beautify garage and basement floors.
- ◆ Color Dyed floors are a low maintenance alternative to many popular flooring systems.
- ◆ Provides a beautiful mottled effect similar to the likes of acid stains.

RECOMMENDED APPLICATIONS

SDI Concrete Dye is recommended for most cured, unsealed interior concrete substrates. Do not apply to a floor that has been sealed prior

TECHNICAL INFORMATION

Solids.....	n/a	Wet Appearance.....	n/a
Drying Time.....	approx. 1 minute	Dry Appearance.....	Colored powder
Re-Coat Time.....	Refer to Directions	VOC Content.....	0 g/l
Foot Traffic.....	Refer to Directions	Blush Resistance.....	n/a
Wheel Traffic.....	Refer to Directions	Solvent Resistance.....	n/a
Application Temp.....	40°F - 85°F	Concrete Penetration.....	Excellent

SPECIFICATIONS/COMPLIANCES

SDI Concrete Dye are VOC and OTC compliant in all areas of the United States and many foreign nations.

APPROXIMATE COVERAGE RATES

<u>Application Surface</u>	<u>First</u>	<u>Optional Second Coat</u>
New and Old (unsealed) concrete	400-600 ft ²	400-600 ft ²
